Green and healthy jobs in transport: launching a new initiative under THE PEP

Astana : September 21st, 2011

Transport, Health and Environment Pan-European Programme

- 2009 Amsterdam declaration among several messages of THE PEP in 2009:
  - The states engaged to elaborate a NTHEAP
  - The states engaged to work for investments in green and healthy jobs

- 2009 in France, is the year of
  1. the implementation of the french « Grenelle de l'environnement »
  2. the elaboration of the second NEHAP with, for the first time, transport measures.
  3. The government mobilisation around green jobs

1. The implementation of the french « Grenelle de l'environnement »

The « Grenelle de l'Environnement » aims at a better integration of environmental issues into the everyday French society and at responding to “the view shared by many that society was facing an ecological emergency”

2. The elaboration of the second NEHAP with for the first time, transport measures
2. National Environment and Health Action Plan

Following the Grenelle Environment round table talks, the french government made a commitment to draw a second national environment and health action plan. The task force was composed of representatives of various associations, labour and management, environmental experts and government stakeholders.

The french NEHAP including transport measures was published on january 2010

What solutions is the NEHAP 2 proposing for transport?

2. Some solutions proposed for transport

- reduce by 30 % concentrations of fine particulate matter in the ambient air by 2015 through a national plan
- prioritizing soft and active modes of transport by setting aside zone for destriers and cyclists and making the issue part of urban planning tools and alternative modes to the private car
- Expand research and evaluation of the health of transport systems

2. French final message about NTHEAP

« Elaborating a NTHEAP, even a very small, even just a copy of existing measure, is a major way, to make transport meeting environment and health, to begin a long story together... »
3. The french government mobilization around green jobs

- Organisation
  - Transport is one of the 11 jobs committees of the green growth fields
- Methodology
  - Jobs identification
  - Needs definition
  - Difficulties analysis
  - Propositions

---

3. « Transport » : 100 000 new jobs capacity by 2020
