TfL’s new Health Action Plan

• The first document of its kind
• Describes the links between transport and health
• How the transport system is already improving health
• How TfL will work differently to deliver greater health benefits & how we will measure it
• Tools and resources for transport and health practitioners to use.
Indicators of a healthy street environment

- People feel safe
- Not too noisy
- People choose to walk and cycle
- Places to stop
- Shade and shelter
- Things to see and due
- People feel relaxed
- Clean air
- Easy to cross
