THE PEP PARTNERSHIP ON ECODRIVING

Objective

Promote EcoDriving with commonly agreed guidelines and tools as well as practical trainings and workshops in UNECE/WHO member states

Scope and Purpose

- disseminate knowledge and best practice
- exchange experience
- test EcoDriving at national and international conferences
- support technical twinning programs between partners
- develop common criteria for certification schemes and training materials
- assess the effects of EcoDriving

PARTNERS AND COOPERATION

Partners:

- Austria – cooperation coordinator of the partnership
- Kazakhstan – pilot trainings and workshop conducted
- Russian Federation – pilot trainings and workshop conducted
- Switzerland – bilateral meeting
- Greece – expert participation and presentation on EcoDriving at the THE PEP conference in Vienna 2016
- The Netherlands – expert participation and presentation on EcoDriving at the THE PEP conference in Vienna 2016

Countries that expressed interest:

- Bosnia and Herzegovina
- Belarus
- China

NEW EMERGING TOPICS

Highlighting new emerging issues related to EcoDriving

- as a contribution to the COP21 (UN conference in Paris) targets
- as measure for the EU Directive 2012/27 on energy efficiency
- with hybrid and electric vehicles
- as a range extender for electric vehicles
- and electric vehicles in driving schools (Austrian pilot project)
- and autonomous driving cars
- mobile machinery
- and generation facebook (apps etc.)

FURTHER ACTIVITIES OF THE PEP PARTNERSHIP ON ECODRIVING

German EcoDriving Workshop:

Presentation of the partnership at the EcoDriving workshop, organized by the German Ministry for Environment, 6th of July, Berlin

Elaboration of “THE PEP Guidelines for EcoDriving”, including:

- elements for the certification scheme for trainers
- EcoDriving training programs for Driving Schools
- EcoDriving trainings for companies and private drivers

The “THE PEP Guidelines for EcoDriving” could be presented at the THE PEP HLM in Vienna in 2019

Further pilot trainings and national workshops can be organized for interested member states
