Questionnaire for reporting on progress made on the attainment of the Paris Goals

Following the Fourth High-level Meeting on Transport, Health and Environment (4HLM) in Paris on 14-16 April 2014, THE PEP continued to conduct its yearly surveying of Member States on the developments in achieving the goals of the Paris Declaration since 2014. These replies were used for a regional overview on progress made at the 12th Session of the Steering Committee of THE PEP in November 2014.

The answers below were submitted by the listed THE PEP focal point(s) to THE PEP secretariat in fall 2014 and are provided here in an unedited version.
### Section A: Information about the preparation of the replies to the questionnaire

Please provide brief information on the process through which this report has been prepared, including information on which types of authorities were consulted or contributed to its preparation.

- ✔ Ministry in charge of health
- ✔ Ministry in charge of environment
- ✔ Ministry in charge of transport
- ☐ Regional authorities
- ☐ Local authorities
- ☐ Academia
- ☐ Private business
- ☐ Non-governmental organizations
- ☐ Others, please specify: 

Please report any particular circumstances that have a major impact on the context for the implementation of THE PEP in your country. For example, whether the decision-making structure is federal and/or decentralized and whether financial constraints are a significant obstacle to implementation.

1. Institutional framework: Moldova is a centralized state with a delimitation of competences between national and local levels, e.g. regional and land use planning and housing is on the level of regions.
2. Due to economic difficulties and financial constraints all sectors are forced with long-term budget reductions and long lasting budgetary constraints.

Please continue with Section B.
Section B: Implementation of the Paris Goals

Priority Goal 1: to contribute to sustainable economic development and stimulate job creation through investment in environment- and health-friendly transport

indicator 1.1 Please describe any policies or programmes in your country that support investment in the following:

Development of transport infrastructure that promotes safety, environment and health and has a job creation potential, including rail and light rail. Please specify:

The National Development Strategy Moldova 2020, adopted in 2012, includes as objective sustainable transport infrastructure development and promotion of healthy and safe modes of transport, encouraging and providing support for local authorities in promoting efficient and environmental friendly transport.

Clean and efficient intermodal connections. Please specify:

The Ministry of Transport and Road infrastructure is taking actions on construction of infrastructure for the combined transport. In passenger transport some railway stations are under construction or renovation to improve comfort and safety for passengers, including for handicapped persons. Under design is the railway Chisinau - Iasi, Romania, of European size of rail track, for better connection with European passenger lines.

Safety measures in road transport. Please specify:

National Strategy on Road Safety, adopted by the GD nr.1214 of 27.12.2010 and Action Plan for implementation of the National Strategy on Road safety, adopted by GD nr.972 of 21.12.2011, provide different measures to increase safety in road transport, such as establishing of Road safety Bureau, as coordination body, introducing of auditing evaluation of safety measures.

Infrastructure for active and environmentally friendly transport. Please specify:

Cycling becomes more popular in the Republic of Moldova. Annually on 27 August and 22 September are organised cycling competitions and tours, with increasing number of participants. The lanes for cyclists are insufficient and exist only in Chisinau. From 2012 also in Chisinau are introduced during weekends large pedestrian zones in the city centre which are very popular. Also the National Health Insurance Fund on annual base financed public health promotion campaigns focused changing behaviour.

Eco-Tourism. Please specify:

The National Strategy on sustainable tourism development for 2003-2015 provides also development of eco-tourism. Following this Strategy, the Oheiul Vechi, a national tourism heritage site is declared also an eco-tourism zone. Actually this Strategy is under revision and it's expected to provide more supportive framework for eco-tourism.

Priority Goal 2: to manage sustainable mobility and promote a more efficient transport system

indicator 2.1 Describe the 3 main policies or programmes in your country that support mobility management and modal shift away from the private car toward more environmentally-friendly modes (public transport, walking and cycling, etc.) and indicate the level (i.e. national, sub-national, local/municipal) and target groups

**THE PEP Questionnaire 2012 - Section B**

### Level Description

**Target group**

**public sector**

The Strategy for road transport infrastructure development for the period 2008-2017. The main function of transport sector is to offer and operate properly an efficient transportation system, capable to meet population and economic sector needs on mobility and contribute to trade development on local and international markets, taking into consideration that Moldova can be a bridge between European Union and NIS countries. Short-term objectives:

- a) rehabilitation of existing road and rail infrastructures and creation of better conditions for passengers and goods transportation;
- b) development of technical regulations for facilitating rehabilitation and continuous management.

---

**Target group**

**communities**

Policy on reforming of maintenance system of public roads, adopted by the GD nr. 244 of 19.04.2012 aim to modernize services responsible for public roads quality, also to provide better services. The Draft Strategy on Transport and Logistics for 2013-2022 years has as one of the objectives to modernize inter-urban and sub-urban transport, the local roads and better mobility management.

---

**indicator 2.2** Does the government raise awareness of mobility choices?

- Yes

---

**indicator 2.3** Does the government promote the use of information technology to increase the efficiency of the transport system?

- Yes

---

**indicator 2.4** Are there mechanisms in place in your country to improve the coordination between land use and transport planning?

- Yes

---

**indicator 2.5** Does your country take any measures to promote high-quality integrated public transport and reducing the need for, and the volume of, car traffic?

- Yes
  
  Please, specify:
  
  Mainly at local level. According to the Chisinau Urban Plan, adopted in 2007, gradually are extended public transport network, in 2012 increased twice the total number of electric transport (trolley buses), decreased the number, minibuses are substituted by new larger buses on the most used routes, started construction of two big parkings located at the city entries to reduce traffic volume in the city center.

---

**Priority Goal 3: to reduce emissions of transport-related greenhouse gases, air pollutants and noise**

**indicator 3.1** Describe any strategies, policies or measures to support a shift in the vehicle fleet towards zero- or low-emission vehicles and fuels based on renewable energy, clean transport modes and fostering electric mobility as well as eco-driving.

A new National Environmental Strategy is under development, also the draft of the new Law on Environmental Protection is in the process of coordination with relevant central authorities, contain provisions on reducing emissions and implementation of green cars and bio-fuels.

---

**indicator 3.2** Does your Government take any measures to support a reduction in noise emissions from transport activities?

- Yes
  
  Specify: Established speed limits for different types of roads, noise barriers, noise, adopted allowed
Priority Goal 4: to promote policies and actions conducive to healthy and safe modes of transport

indicator 4.1 Describe any strategies, policies and measures in your country for the promotion of healthy and safe modes of transport, including infrastructure and safety measures for safe walking and cycling, policies to support cycling and walking, in particular in urban areas and links with efficient and accessible public transport.

The National Development Strategy Moldova 2020, adopted in 2012, includes as objective sustainable transport infrastructure development and promotion of healthy and safe modes of transport, encouraging and providing support for local authorities in promoting efficient and environmental friendly transport.

indicator 4.2 Do transport policies and actions in your country focus on vulnerable groups such as children and persons with reduced mobility?

Yes Specify: Yes, the Action Plan for implementation of National Strategy on Road safety provides measures for prevention and reduction of injuries due to traffic accidents among schoolchildren. Also, new technical regulations on passengers transport vehicles provides requirements for adaptation of vehicles and public stations to meet the needs of handicapped people and those with reduced mobility.

Priority Goal 5: to integrate transport, health and environmental objectives into urban and spatial planning policies

indicator 5.1 In your country, at what administrative level(s) is spatial/urban planning regulated?

- [x] national
- [ ] sub-national
- [x] local / municipal

Specify authorities: Urban and spatial planning is regulated at both national and local levels.

indicator 5.2 Is spatial planning coordinated between the authorities indicated above in indicator 5.1?

Yes

indicator 5.3 Describe any policies or legal measures that require integrated urban and spatial/urban planning in order to reduce the impact of transport on health, the environment and land use, increase energy efficiency and support green and healthy mobility and transport as well as sustainable livelihoods. Please also indicate at which administrative level they exist.

indicator 5.4 Are there national capacity building initiatives on integrating transport, health and environmental objectives into urban and spatial planning policies?

Yes

If YES, please indicate how they are done?

- [ ] academic education
- [x] training for professionals
- [ ] other, please specify: Urban planning is part of academic curriculum, training for professionals is an integral part of master's programs in urban and spatial planning.

Please continue with Section C.
Section C: Implementation of THE PEP

6. THE PEP Implementation mechanisms (please see the Amsterdam Declaration para 6-8 and Paris Declaration para 9)

NATIONAL TRANSPORT, HEALTH AND ENVIRONMENT ACTION PLANS (NTHEAPs)

indicator 6.1 Does your country have a NTHEAP or similar tool? [ ]

Was THE PEP helpful in the development of your country's NTHEAP?

If available, please provide a web link to your country’s NTHEAP:

http://

indicator 6.2 What is the current status of your country’s NTHEAP?

indicator 6.3 What is/will be the scope and format of your country’s NTHEAP?

☐ national
☐ sub-national
☐ stand-alone document
☐ part of a national environment and health action plan (NEHAP)
☐ environment and health components in a national transport action plan

RELAY RACE (Staffete)

indicator 6.4 Has your country contributed to THE PEP relay race workshops? [ ]

If YES, how?

☐ technical contribution (in kind)
☐ financial contribution

THE PEP PARTNERSHIP

indicator 6.5 Does your country contribute to THE PEP Partnership? [ ]

If YES, which ones and how does your country contribute?

☐ Partnership on jobs in green and healthy transport
☐ Partnership on cycling promotion
☐ Partnership on eco-driving
☐ Partnership on health economic assessment of walking and cycling
☐ Partnership on signs and signals for pedestrians and cyclists
☐ Partnership on TRANSDANUBE and ACCESS2MOUNTAIN

indicator 6.6 Are there any formal networks/platforms of professionals who are involved in THE PEP issues in your country?

[ ]

Please specify:

Environmental Health National Platform

indicator 6.7 Are these networks/platforms supported by the government?

[ ]

If YES, please indicate how:

☐ direct funding
☐ in kind
☐ political

7. Policy, regulatory and operational frameworks that support the promotion of THE PEP

indicator 7.1 Do you have a coordinating body and/or a formal structure for implementation of THE PEP within your government?

[ ]
Represented sectors:

- Transport
- Environment
- Health
- Finance
- Academia
- Education
- Spatial/urban planning
- Agriculture

**8. Future of THE PEP**

**Indicator 8.1** What have been the main successes of THE PEP in stimulating national action in the priority areas of THE PEP in your country? Please give concrete examples and a short explanation of your assessment.

In 2008 THE PEP Sub-regional Workshop on sustainable healthy transport held in Chisinau and focused on EECCA countries needs, stimulate public and local authorities involvement. By Chisinau municipality achieved good results on sustainable development of public transport - almost doubled number of electric public transport, at one existing factory established a technological unit for assembling trolleys, which made possible to substitute used transport units and to increase number of people who use public transportation. Also constructed cycling lanes in Chisinau creates conditions for increasing popularity of cycling. In 2014 inaugurated a pedestrian street in the city center, during weekends and holidays, the main boulevard in Chisinau street also pedestrian. After 2010 all national roads are under modernization, the surface of roads in good and satisfactory conditions increase twice, from 40% to 80%.

**Indicator 8.2** What have been the main weaknesses of THE PEP in stimulating national action in the priority areas in your country? Please give concrete examples and a short explanation of your assessment.

Insufficient communication and collaboration between three sectors, activities are only on voluntary basis, there are no legal obligations and no direct financial support. No common indicators for monitoring and reporting.

**Indicator 8.3** How could THE PEP better support national efforts to integrate transport, environment and health policies and achieve sustainable transport?

Through better communication and cooperation between three sectors, with larger involvement of local authorities and NGOs, organising meetings and workshops to exchange local and international experience on healthy urban transport. Also is necessary support for NETHAP development. It is necessary to identify and implement specific projects involving all three sectors for producing positive results and improve collaboration between them.

Please complete this questionnaire together with the other THE PEP focal points in your country and return it to THE PEP secretariat before 31 October 2014 by e-mail to csc@euro.who.int

Thank you!
