 Others, please specify:

Please report any particular circumstances that have a major impact on the context for the implementation of THE PEP in your country. For example, whether the decision-making structure is federal and/or decentralized and whether financial constraints are a significant obstacle to implementation.

Decision-making structure is centralized and there are some constraints to implement THE PEP. But, through actual, modern politics for decentralization and strategies named to develop an efficient and safe transport, there are many activities related to it, on local level.
